EDUCATION

Queen Mary University of London

BSc Computer Science and Mathematics

London, UK

Sept 2023 – Present

- **Average Grade:** First class
- **Related Modules:** Procedural & Object-oriented Programming, Automata & Formal Languages, Linear Algebra, Data structures & Algorithms, Software Engineering, Internet Protocols, Probability & Statistics, Analysis of Calculus, Numbers & Functions, Vectors & Matrices, Complex Variables

Newham Collegiate Sixth Form Centre (A-Levels)

Mathematics (A*), Further Mathematics (A*), Physics (A)

London, UK

Aug 2021 – Aug 2023

EXPERIENCE

Google DeepMind

Research placement

London, UK

June 2025 – Aug 2025

- Selected as **1 of 12** candidates for a competitive AI research program by **Google DeepMind** with PhD supervision.
- Researched **AI perception of music** using timbre-based tasks by implementing **zero-shot and MLP experiments**.
- Resulted in **co-authoring a research paper**, which was accepted into **the ISMR 2025** conference [here](#).

Data Annotation

Freelance programmer and Annotator

London, UK

Feb 2025 – Oct 2025

- Provide expert solutions to mathematical problems and provide feedback to **train AI models** and complex data sets.
- Program projects in a variety of coding languages depending on the specifications.

London Science College

Physics and Mathematics tutor

London, UK

Sept 2023 – Present

- Delivered personalized tutoring and designed worksheets in Mathematics and Physics from GCSE to A-level.
- Ensured **90%** of students achieved high grades through tailored one-to-one and group sessions.

Queen Mary Ihsan Consulting Society

Committee member and Marketing Manager

London, UK

Oct 2024 - Present

- Work closely with the members in consulting smaller businesses and charities on marketing strategies.
- Managed social media by utilizing **Canva** for events and posters, achieving a **20%** increase in applications.

Microsoft Accelerator

Internship

London, UK

Oct 2024 – Dec 2024

- Completed a mentorship-driven program, gaining insights into the tech industry, enhancing **technical skills**.
- Developed practical expertise through **collaborative projects** and direct mentorship in solving real-world problems.

PROJECTS

Virtual Mars Gaussian Splatting

Final Year project

Aug 2025 – Present

- Exploring the use of **3D Gaussian splatting** to reconstruct immersive virtual scenes of Mars from NASA rover data.
- Aiming to create interactive 3D landscapes that will allow seamless navigation.

Cryptocurrency Trading Platform

University Group project

Jan 2025 – Aug 2025

- Led a team to develop a web-based cryptocurrency trading platform, implementing **two-factor authentication** for account protection and **circuit breakers** to mitigate market volatility.
- Features included **portfolio tracking**, **price alerts**, and **API integration** using **Django** and **React**.

Tetris Project

Personal project

Jun 2024 – Aug 2024

- Developed a Tetris game in **Java** using the **Javax** library to deepen my understanding of Java and interface design.
- Incorporated sounds and visual effects to enhance user engagement and integrated version control with Git.

ADDITIONAL SKILLS / HOBBIES

- **Programming:** Java, Python, HTML, SQL, CSS, JavaScript, Flask, PostgreSQL, React, R, MATLAB, Django, Fast API
- **Technical:** Microsoft tools (Excel, PowerPoint, Word, Teams), Canva, Google Ads, Facebook Ads
- **Software:** GitHub, Git, IntelliJ, BlueJ, PyCharm, Jupyter Notebooks, Visual Studio Code, Windows, MacOS, Collab
